EDUCATION

Mohawk College|Hamilton,ON

Software Support | Current

Relevant Courses: Python, HTML & CSS, Java, JavaScript, Programming in .NET, C#, MySQL

EXPERIENCE

G-tech Solutions |Kerala

Aug 2022 - Mar 2023

Intern

- Collaborated with a dynamic team to develop and test innovative software applications using Python and Java, enhancing my programming skills.
- Tackled bugs head-on, troubleshooting issues and implementing creative solutions that improved project functionality.
- Led user testing sessions, gathering valuable feedback to refine user experience and design, ensuring products meet real-world needs.
- Engaged in team scrums, documenting progress and embracing agile methodologies to boost project efficiency.
- Created impactful data visualization reports in Excel, helping the team unlock insights and elevate project metrics.

Manchu Wok | Burlington,ON

Sep 2023 - current

Cook

- Managed a fast-paced kitchen, ensuring high-quality output while balancing multiple tasks
- Collaborated closely with team members to optimize workflows
- Interacted with customers daily, handling feedback and resolving issues to ensure a positive dining experience, demonstrating strong communication
- Adapted quickly to changing demands, sharpening the ability to work under pressure

PROJECTS

Weather App

Sep 2024

Project Overview:

Developed a dynamic web application that provides real-time weather data using HTML, CSS, and JavaScript.

- **Developed a dynamic weather app** using HTML, CSS, and JavaScript, featuring real-time weather data from an API.
- Designed an **interactive, mobile-responsive UI**, with smooth animations and hover effects.
- **Optimized UX** with a light color scheme and user-friendly layout for enhanced usability.
- Used **Git for version control**, managing code changes efficiently throughout development.

Shopping Cart Web Application

Oct 2024

Project Overview:

Crafted an interactive shopping cart web application that transforms the online shopping experience, allowing users to explore products and manage their carts effortlessly.

- Developed an interactive shopping cart application for online shopping.
- Designed a visually appealing product grid with **HTML** and **CSS**.
- Implemented one-click add-to-cart functionality using **JavaScript**.
- Enabled users to easily update quantities and remove items from their cart.
- Optimized for both **desktop** and **mobile** devices, ensuring a seamless experience.
